Mamta Industries

<http://www.mamtaindustries.in/>

We are one of the leading manufacturers and suppliers of high quality Chemical Compounds. Precisely processed in compliance with international quality standards, the offered compounds are known for their purity and effectiveness.

About Us

Known for manufacturing and supplying a wide range of optimum quality Chemical Compounds, **Mamta Industries**, Vapi, was established in the year **2004**. In this range, our valuable customers can avail various chemical compounds such as Zinc Tetroxy Chromate, Tribasic Lead Sulphate, and Zinc Chromate Chemical. Processed from cent percentage pure ingredients, these chemical compounds are highly demanded in the market for their accurate composition, purity, non-toxicity, precise pH and effectiveness.

It is due to sincere efforts of our hard working and experienced team of professionals that we have been able to provide the prestigious customers unmatched quality chemical compounds. All professionals work in close coordination with each other, to avoid hassle in the work place. In order to provide our customer delivery of pure chemical compounds, these are rigorously tested on various parameters by the highly experienced quality controllers. In a zest to attain maximum customers' satisfaction, our logistic agent assure effective, safe, and delivery of the offered compounds within fixed time frame. In addition to this, we offer our esteemed customers multiple payment and shipment options, keeping in mind their convenience.

We were established as a partnership firm and are currently operating under the expert supervision of **Mr. Amit Patel**. His vast experience in this domain and continuous motivation has helped us to upgrade...
